# Others Say

Farmers generally are not unanimous in their at-titude toward the idea of a controlled agricultural economy. Most of them, of course, as a result of marketing difficulties in recent years, feel that their interests are served best by some for their inde-central giving them as of their power of their inde-tended their power of their index of their index on the market.

There are others who still feel that the old law of supply and demand, despite all its apparent weaknesses when applied to the marketing of farm products, may be still sufficient.

be still sufficient. What they do not understand, however, is that the law of supply and demand cannot properly be applied to farm profuce without both the farmer and the consumer tunning a serious risk.

This is much more true today, when farmers through their organizations are beginning to have more control over the marketing of their produce, than they did in the past.

If production on the farm were to be controlled by the law of supply and demand the result would be the price of a commodity by the simple expedient of their produces. utting the production in half the consumer would

This is a problem that must be faced before long. The production of food obviously cannot be left to the uncertain forces of so-called "natural" economic laws. But if in the interest of the general public farm production must be maintained at a healthy level, there must be some means of ensuring that the man who produces the food is not penalized for producing

a surpus.

It is time that the general public realized that the food industry—the farm—is a public utility to which the ordinary laws of the market-place cannot apply.

—The Rural Co-operator

An editorial in the bulletin of the Westchester County Medical Society advises doctors to avoid "sing on and jabewook;" when talking with their paties, represent they can speak simply and plainly of diseases, symptoms and textaments, if they will take the rough, though they may sacrifice some scientific accuracy by doing so. But the patient will at least have some idea what they are talking about more constant of the second section of the section sec

OTHERS SAY

ccidents on the high-While the majority of the accidents on the high-ways are the result of the excessive speed at which motor vehicles are driven, the fastest driver is not the only mease to safety on the highways. Equally dangerous, in some respects, is the driver who just jogs along the road, driving at anything between 15 and 30 miles an hour, holding up long lines of traffic

While the slow-poke driver may not himself be While the slow-poke driver may not nimeer be driving dangerofisly, he is indirectly a contributor to dangerous driving by others. One can see every day a long line of cars held up by some individual who is coasting along serenely at a very slow rate of speed.

As the drivers behind lose patience, cutting-in starts,
until soon both sides of the traffic lane are filled by cars jockeying in and out to get ahead of the slow-poke. It is under such circumstances that the accident hazard is increased to an alarming degree, so that the

slow driver becomes a contributory factor in accidents.

It is very pleasant to jog along slowly enjoying the scenery and the breezes on these summer days, but scenery and the breezes on these summer cays, out the driver who is out purely for a pleasure spin, and is going nowhere in particular, would be rendering other motorists a great service if he would remain off the main highways, and do his slow driving on the back and side roads, where there would be little danger. —Oshawa Times-Gazette

GUIDANCE FOR CYCLISTS

CUIDANCE FOR CYCLISTS

The Ontario Department of Highways, recognizing the fact that cyclists are far too often involved in traffic accidents, in many instances through their own actions, has published a special folder for their guidance. This set of instructions for cyclists should be obtained and studied carefully by all who use this means of transportation.

The folder includes many rules which are generally ignored by many cyclists, and which need to be emphasized. For instance, it is pointed out that cyclists are bound to obey all traffic signals and signs, just Many people on bicycles as are motorists. feel that these signals and signs do not apply to them, and take unnecessary chances at street intersections by ignoring traffic lights.

by ignoring traffic lights.

Another cycling regulation which is very often disregarded is that concerning lights on bicycles. The law requires that a bicycle must have a white light in front and a red light or reflector of approved type in the rear. Every night, bicycles can be seen on the streets of Oshawa without any light whatever, adding streets of Oshawa without any light wanatever, adomig to the traffic hazards. The law also says a bicycle must be equipped with horn or beil, and have good brakes. It prohibits carrying another person on the cross-bar, handle-barn or on the rear carrier. These provisions are all violated by a great many cyclists, perhaps because they are not familiar with the law. This folder, if studied carrelly, and used as a

guide to riding habits by cyclists, would certainly help to cut down the number of accidents in which help to the down the homose or scenter in which bloycle-diders are involved. A copy can be secured by simply writing for one to the Ontario Department of Highways, Parliament Buildings, Toronto.

—Oshawa Times-Gazette

PEACE AND QUIET?

The principle value of summer cottages has al-ways been to escape from the heat of the town. Those fortunate people who spend their summers along the lake or the river can duck into the water or sip cool lime juice under a shade tree.

They get next to nature and see the birds and

They get neit to nature and see the birds and feel the bugs. They learn to rough it in the country more or less. Of course a large number of the coltagers have installed running water with indoor plunding. Loss more have taken their electric refrigerators and electric is torce along to the country.

A number of people have spent much time and money on interior decorating and exterior landscaping. These comforts would appear to us to be highly destrable as long as the eternal struggle to keep up with the Joneses is dropped for a couple of months. But when the competition gets tough, it seems the summer cottagers are defeating their own purpose in continuing the mad race.

in continuing the mad race. But in one thing the summer cottagers have gone ther than defeating the purpose of establishing a

comfortable quiet place. They have almost all pured outboard motors.

Now while there are outboard motors in conn

tion with almost all the summer camps, most certainly all the cottagers are not in them every hour. Quiet Sunday mornings at the cottage are no longer pos-sible. Just about everyone shuts his window to try to keep the noise out and even then sleep is seldom possible after nine o'clock in the morning. Earlier we said the cottagers could see the birds.

This is true, but one can scarcely hear them anymore -Napanee Express

The provincial government of Saskatchewan has adopted a plan for dealing with traffic offenders which we shall watch with interest. Any driver convicted of a serious offence has his current licence plate taken away, and a new one in a distinctive color is attached to his car; therefore all other drivers on the road know when they are near a driver who has been guilty

of driving to the public danger.

So far 461 of the "disgrace" plates have been placed on Saskatchewan cars; 170 other motorists have had their licences suspended altogether. Plainly Saskatchawan means business.

Peterborough Evaminer

ABOUT THE FRANCONIA

The case of the steamship Franconia, which ran

aground half an hour after leaving Quebec on July 12. aground hair an nour after leaving Quebec on July 12, appears to have been settled to the satisfaction of the Ministry of Transport. We cannot say that it has been settled to the satisfaction of the people of Canada. The pilot has been suspended for a period which has not yet been fixed, and there is to be no formal enquiry. But why not?

Pilots are a class of men in whom a sp Finds and a class of men in whom a special trust is placed. They are, in the main, worthy of that trust and discharge their work well. But when one pilot runs a large ship on the rocks in one of the principal seaways of the country suspicion is aroused that there by be other pilots who do not know their business, who may not always take proper pains in doing the work. The only way to lift that suspicion is to make public what happened, and why it happened, and to make it clear to everybody that it is not to happen again. If a locomotive engineer involves his train an accident the public expects to know why. The same curiosity extends to the pilots of the St. Lav rence River and all the ports of Canada.

Nobody wants to humiliate a man merely for the satisfaction of humiliating him, but people have a right to know why serious and spectacular accidents occur. The action of the Ministry of Transport in this case looks as though something were being glossed over and hushed up, and such a suspicion, attaching St. Lawrence River, should not be permitted to exist. -Peterhorough Examiner

DON'T GIVE WAY TO POLIO PANIC

This is the time of year when poliomyelitis, or infantile paralysis, generally makes its appearance and parents of small children and young people who are responsible for their own health do well to give heed to any of the petty aliments which precede it, if these do not yield to ordinary treatment. But we would caution particularly against any curtailment of healthy outdoor sports. Summer is the time for play and healthy play will probably do as much as anything else to keep pollo at a distance. Public health authorities will give prompt warning if any swimming pool seems to be a source of infection, and until such varning is given the best plan is to forget about polio

Polio is a spectacular disease which often leaves lifelong disabilities behind it. No cure for it has yet been discovered, but diagnosis is quicker than it used to be, and treatment is better. A fact which is not to be, and treatment is better. A fact which is not given enough consideration is that many children have polio and recover from it little the worse. Some very able men are at work on this problem, and we must have faith that they will find a cure for polio sconer or later, as they have found cures for so many other ailments which were, within living memory, terrifying

ailments which were, wasnessessory of childhood.

Nothing is gained by being frightened of a disease, and by living as though the disease were imminent. Fear is perhaps the worst and most destructive disease—Peterborough Examiner

Canada is rapidly moving towards a tremendous industrial future. That considered opinion is expressed in a full-length article, entitled, "It's Easier to Get Rich in Canada" about this country, featured in the

August issue of the American Magazine.

To secure first-hand information about Canada
her resources and economic well-being, this magazine sent an American writer, Clarence Woodbury, on a tour of the Provinces. In reporting his impressions of what he saw, what he was told and what it means to the future of Canada as well as to the United States, Woodbury writes:

RESPONSIBLE CITIZENSHIP

The founding fathers who initiated Canada's con-federation were men who knew Democracy's big idea, that "God shall rule in the affairs of men," and that it is from this idea and none other that the conception of 's equality and brotherhood springs.

On such an idea they could unite and m

of such an near they could under and any of the without fear. But today Democracy is flighting for its life. Another big idea, "the State shall rule in the affairs of men," is on the march to capture the hearts and minds of men, a materialistic philosophy that can lead only to

usion and chaos. We are in a war of ideas. One, God-inspired, in es freedom—the other, which builds on hate, leads to slavery. We still can choose, so let us start to pioneer again to make Democracy live. Only we, ourselves, wherever we work and live with people can know, spec-ifically, what that means. The yardstick is the moral test of absolute honesty, purity, unselfishness and love and the guidance of God.

In our dreams of a free, inspired Democracy is going to meet, match and surpass the challenge of work communism, we must do three things:

Live it more effectively at home. Sell it more effectively abroad. Develop a world strategy for our Christian ideology which is as comprehensive and effective as the march of militant materialism. THE PLEASURE OF PRETENCE

We notice with interest and pleasure that a dress-up party was held on one of the local playgrounds last Thursday, and that several little girls turned up in fined, we presume, from their mothers' store of discarded clothes. They all had a good time.

"Pretence is always envigorating," says Sir Osbert rell. Children love to dress up and pretend to be somebody else. And so do adults. We have wondered. someouty eise. And so do adults. We have wondered, now and then, why masquerade parties are so infrequent nowadays. Before the first great war they flourished, and almost every community had at least one masquer-ade dance every winter. Sometimes the costumes LAUGH IT OFF

Two hilbillies living in a mountain town, went wading in a nearby creek. "Jeepers," exclaimed the first,
'Ain't yore feet dirty!" "Ain what have you to talk!"
said the second, "Yore feet are worse than mine."
"Yeah, but you feegit," was the reply, "I wus two
years afore you."—Labour Leader

The baby-sitter was pushing the baby carriage along ath in the park when a policeman strolled up.

Fine looking baby," he said, "How old is he?"

He'll be a year old next week," answered the baby

"He doesn't look that old," said the policeman.
"No," replied the baby-aitter. "You see he was very young when he was born."—Labour Leader

A man was drinking a glass of beer at a bar when another man walked in and ordered a whiskey and soda. He drank it, walked up one wall of the bar, across the ceiling, down the other wall and then out

The beer drinker was shocked. He turned to the

barman and said: "What a peculiar fellow!"

The barman noded. "Yes, isn't he? He never says good-night."—Labour Leader

"Do you know the difference between the English,

Scottish and Irish?"
"No, what is it?"
"Well, in leaving a train, an Irishman walks off
without looking to see whether he has left anything
behind; an Englishman looks back to see whether he
has left anything, and a Scottama looks back to see
whether anybody else has left anything." -Iahour Leader

Drugstore Clerk: "Did you kill any moths with those moth balls I sold you the other day?

Customer: "No. I tried for five hours, but I couldn't

# Kids 'See' Good Music And Find That It's Fun

By NEA Service GARDEN CITY, N.Y. — (NEA)— The old music appreciation course has been modernized. As one musi-cian is giving it here, youngsters are even enjoying the thing.

are even enjoying the thing.

Leon Barxin believes that good
music can be good fun. He's
teaching children how to like music through "seting" it, rather
than just listening to it. Barxin's
sessions are far from the usual
elt's-all-sit down-and-listen- tosome-nice-records idea of most

music appreciation courses.

To begin with, he doesn't play records at all. He brings with him an instrumental quartet. Sometimes it's a string quartet, sometimes brass, sometimes woodwinds. They play a number—any number, so long as it has a simple tune.

up on the platform and mandle them, or watch closely as the musician makes it work. They ask all kinds of questions, and they're BULL FIDDLE doesn't cow all answered quickly—even things youngster, meeting good all answered quickly—even things youngster, meeting good music like, "How long is the tubing in with Leon Barzin. He lets the a tuba?" (The answer, inciden-children handle all the instrutally, is 19 feet). Bartin who is director of Adel-

Quality for you....

# Afficiency of the common for an analysis of the common for analysis of the common fo He has MORE Anti-knock

Your Imperial Esso dealer has improved Esso and Esso Extra-top-quality gasolines for smoother performance.

Keep up-to-date with Esso and Esso Extra-the modern gasolines. For several months Imperial Esso pumps have been delivering higher anti-knock quality gasoline-just one of the improvements that are part of a continuing program to keep Esso gasolines abreast of car engine requirements.

When you buy Esso and Esso Extra you not only get higher anti-knock quality but in addition, controlled volatility and the best balanced combination of important gasoline qualities to give allround performance.

Most cars now give satisfactory per-formance with ESSO—a balanced gaso-line with stepped-up anti-knock quality and controlled volatility to give smoother performance at regular price.

Some cars—due to extra high compression, or the condition of the engine—need premium quality gasoline. For those cars your Imperial Esso dealer has ESSO EXTRA with extra anti-knock quality.

Fill your tank with ESSO or ESSO EXTRA. Take your car out on the road. Notice the fast starting, quick warm-up, surging power on hills and highways!

# ATLAS ALSO LEADS THE WAY - OFFERS MORE IN CAR ACCESSORIES!

Another First - The New Atlas Micronic Oil Filter Refill With the Dirt-Check Window!

MORE BATTERY LIFE!

Atlas leads the field in batteries. Atlas Batteries have more reserve capacity, starting power and longer life. Get more with the Atlas written Guarantee, the most liberal offered motorists, and made good by 38,000 dealers in Canada and the United Stretch

It's new! It's better! Here's more for your money! The built-in Dirt-Check window of the new ATLAS Micronic Oil Filter Refill now lets you see at a glance the amount of dirt and sludge removed from your oil . . . tells you when the filter needs replacing—quickly, easily and accurately. Inside the filter is the finest-gauge filtering element

with more diri-catching capacity — removes 200% more abrasives than old style filters. Give your engine more protection against dirt and aludge, get more conomy with the new filter's longer life. Ask your Imperial Esso design about the new ATLAS Micronic Oil Filter Refill with the built-in Dirt-Check Window! Get more valued.

# LET'S STOP THIS RAILWAY STRIKE!

A strike on Canada's railways would be, at any time, a tragedy. Today, as we prepare to meet the threat of expanding military aggression, such a strike would mean national disaster.

The Boards of Conciliation, which reviewed in detail all the facts of the dispute, said in their report:

"It is our firm opinion that the recommendations herein contained embody the utmost in the way of concessions which the railways ought to grant at this time."

Yet, the railways offered the unions concerned in this dispute a settlement far more generous than the Boards' recommendations.

# HERE IS WHAT WE HAVE DONE

Our offer, which we published in detail, included these benefits for our employees:

- (1) A shorter work week for the great majority, with no loss of pay OR (if the unions prefer)
  A substantial increase in "take home" pay.
- These higher hourly rates would result in higher overtime rates.
- (2) Acknowledgement by the railways of a moral obligation to put the

S-day 40-hour week into effect at the appropriate time. The Board of Conciliation said this: "The 40-hour week is not in Canada, as it is in the United States, the normal work week. On the contrary, the evidence before the Board indicates that the 40-hour week is very rare in Canadia industry."

(3) Separate consideration to be given the claims of hotel and water transport employees on merit.

WHEN APPLIED TO ALL EMPLOYEES, THESE BENEFITS WOULD COST THE RAILWAYS APPROXIMATELY \$37,000,000 T YEAR

# THE TIME IS NOW!

The welfare of every Canadian is involved in this critical dispute. The Board of Conciliation said: "In the consideration of increases of this magnitude in railway wage scales there is, besides the employers and the employees who conduct the negotiations, a third party, unheard at the council tables, whose rights must be weighed—the ordinary Canadian citizen." Let's stop this railway strike NOW! The time to do this is not at the eleventh hour, or after a strike begins. The time is NOW!

### OTHERS SAY

is surprising what discoveries are now being made by the guiding geniuses of Soviet Russia. In the last year or two, they have claimed the the credit for being the originators of nearly everything that has ever been invented. Apparently, under the old regime of the Czars, the Russians were hiding their light under a bushel, and it has taken the enlightenof Communism to make them realize what won-

derful people they are.

The very latest claims to outstanding invention have been made for Russia by Lt.-Gen. Vassily Stall son of Prime Minister Joseph Stalin, who has added to the claim that Russia invented the first airplane. Aparrently they never heard of the Wright Brothera over in Russia, Young Stalin, however, goes a long way beyond the mere claim that the airplane was a

way beyond the mere claim that the airplane was a Russian invention. He ays:

"Our great land was the birthplace of seve-straption, with a contract of the con truth of what other nations are doing. They are fed only the pap which comes from the Moscow propa-ganda mill, and they swallow it avidly. Apparently all that remains is for the Russians to claim that one of their number created the world.

Oshawa Times-Gazette

This is the season of the year when the lady of the house can be seen, armed with a fly-swatter, wag-ing relentless war on the common housefly. This is one war which can be fully justified, and which is, indeed,

imperative for the protection of public health.
All are familiar with this filthy, disease-spr insect which becomes a torturing pest in the hot days of July and August. It seems to penetrate into the home, regardless of window and door screens and any other precautions that can be taken against it. And in spite of the statement of a British health authority that a campaign carried out systematically could result in its complete extinction, files seem to flourish and multiply at an amazing rate.

The danger to health of this distributor of disease

germs is well-known. It finds its breeding places amongst fitth and garbage of all kinds, and carries disease wherever it goes. Therefore the most relent-less campaign is needed to eradicate it from the place less campaign is needed to eradicate it from the place where it can do most harm—in the home. The most effective authors against fires is the taking of pre-effective authors are supported by the support of the original properties. The use of the property of the sprays, and the constant wielding of the fly-swatter, are effective, but there is nothing that can compare with dealing with it at the source, and making sure that there is no breeding places left for it in the proximity of the home.

Oshawa Times-Gazetto

### A SERIOUS SITUATION

A Sachulos SIIUATION
A rather serious elituation affecting the farmers of Ontario and Durham Counties has arisen as a result of unprecedented wet weather of the past when the county of the past when the past the past when the past their grain crops, the humidity has resulted in wheat sprouting with a resultant loss which may well reach tens of thousands of dollars.

well reach tens of thousands of dollars.

A year ago crop conditions generally were far
from year and the hay crop was poor with the result
the ground the property of the property of the result
that year and the property of the property of the property
petced that district farmers would be able to recomp
petced that district farmers would be able to recomp
to the property of the property of the property
to break any records. The wet weather has meant
that dreams have been shattered for many.

That farming is a gamble, dependent upon the vagaries of the weather, was never more apparent. What is not always understood is the prosperity of What is not aiways understood is the prosperity of the farming community in large measure governs that in the urban and metropolitan centres. Serious crop losses mean that the farmer is unable to main-tain his level of production and the price to the con-sumer advances. At the same time the purchasing tain in several advances. At the same time the purchasing same advances. At the same time the purchasing power of the farmer diminshes and he cannot buy luxury goods from the urban merchant.

—Oshawa Times-Garette

### STRANGE SILENCE OF A PROPHET

STRANGE SILENGE OF A PROPHET

A very popular English publication is "Old Moore's
Almanae"; for 107 years it has been popular in farm-houses, public houses, octiclases and dwellings where
few other books are found. It is handy because it
gives the usual information about the rising and settling of the sun, the working of the tides, a calendar
marked with the important anniversaries and the inmarked with the important anniversaries and the inmarked with the important anniversaries and the inprivate agreed of the properties gives a great deal of advice on matters of health to unferrent from varicote velas, rehemation, victims of the drink or tobacca habit, people whose livers are feature of "Old Morro" is his "Prophetic Notes", at-tached to each month of the year. And the most interesting thing about the Prophetic Notes of 105 fs that they make no mention whatever of Kores. Here are Old Moores' pedictions for July: "Trade

between us and the South American countries is grad netween us and the South American countries is grad-utally recovering. Bulk buying accounts for most of it, and many people would like to see more meat from Argentine as in the old days. Our steel pro-ducts are in great demand, but the question still remains how many tons of agricultural produce for one ton of steel machinery—The hay harrest is provide a good one and the prospects are good for our farmers. They find they can manage with less subsidies—Bibbuilding yield are busy and many more ships are being haunched. There is some question as to whether they will have as much own't in the future. Regulations are lightened up convergence to east of bring fluorest produced to the cost of living afford.—A waching these have only varied within fluorest produced the convergence of the cost of living the convergence of the cost of living the convergence of the cost of living the cost of living the convergence of the cost of living the cost of

The phophet business must be a disspointing trade. The phophet business must be a disspointing trade. The phophets of the Old Testament had the right plan: they simply foretold woe, in a large general way, knowing that eventurally mankind would prove them right.—Peterborough Examiner.

### MACKENZIE KING'S WILL

MACKENAIE KINGS WILL

It comes as a surprise to most of us that Mackenzie King has left an estate valued at three-quarters
of a million dollars. At no time during his life was
Mr. King engaged in what would appear to be profit-Mr. King engaged in what would appear to be profit-table business dealing. His salary, though sufficient, was never a large one as rich men reckon such things. Nevertheless, by investment, by saving, and by receipt of gifts from those who wheld him well he accumu-lated a good deal of money, virtually all of which he has left to the country which he served all his life.

has left to the country which he served all his life.

It is no surprise that Laurier House has been left to the nation. Mr. King was always proud of the fact that the dwelling which was filled with memorial that the dwelling which was filled with memorial to this ot his de chieftain was left to him by Lady Laurier. From time to time it was whispered that he had willed 100 do no. Political parties have a way of dwelling changing their fortunes, and changing their principles, changing their fortunes, and changing their principles. Laurier House belonged to two great Canadians, and it is to the people of Canada, and not to a party, that it belongs. Our country is now old enough to have a place for such reminders of our great past, and we are glad that Laurier House is to be a public possession. are glad that Laurler House is to be a public possession. The sum which was given to Mr. King to main tain it goes with the house, for he regarded it as a trust rather than as a personal possession.

No one will be surprised either, that a large part of Mr. King's personal fortune is to be dispersed in schol-

Mr. King thought little that did not concern the, welfare of Canada while he was alive, and his will shows that he sought to do his utmost for this shows that he sought to do his utmost for this country after his death. His thoughtful disposition of both his homes and the bulk of his private fortune of both his homes and the bulk of his private fortune leaves this country still further in his debt.

—Peterboro Examiner

Canada seems to find great difficulty in persuad-ing the United States Congress to ratify treaties with that country in respect to power developments. For many years, failure to ratify the St. Lawrence Water-way development on the part of Congress has bloom to the development of the great resources of power on that river. Now it seems as if a similar attitude is that free. Now it seems as it a similar actions is being adopted with regard to a treaty whereby the generation of power at Niagara Falls could be in-creased by an additional diversion of water.

creased by an administration of water.
This treaty was quickly ratified by the parliament of Canada, but it is now lost in the maxes of argument in the Foreign Relations Committee of the United States Senate, where it seems likely to find a burying ground.

burying ground.

This apparent frustration of Ontario's hopes for increased water power devlopment at Niagara Falls is being deployed, not only in this country, which was the built de United States. For instance, the Burfain Evening News, in an editorial, has this to say:

"For our Senate to ansive the Niagara tray would be an afforted to Canada, which made haste to approve on the underment at the Pull; "could seminate tutto, sagar for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the Pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, says for a referring-ment at the pull; "could seminate tutto, say

This sentiment will be echoed throughout Ontario, and has already had strong newspaper support in this province. It would be unfortunate if once again province. It would be unfortunate it once again Ontario's power program should be blocked because of the failure of Washington to co-operate. —Oshawa Times-Gazette

### 'PERSONAL' NEWS

NOW. In the been approached on many occasions by provide have been approached on many weekly papers publish as called "small time items." Such things as "Mrs. Sociality State of the state

nen readers of weekly newspapers scan the "When readers of weekly newspapers scan the news columns of their local papers they find many articles which appear to have no worth-while function except in inform them somebody they do not know hoo something they did not know about. They friend has been that all ticker to homo — a friend has been that the closer to homo — a friend has been the state of the type of areas that is visible to the control of th Here lies the secret of the type of news that is cal-loquially reforred to as 'the personal.' The secret is simply that these personals tell them what people in their community are doing and planning. It is im-portant this aspect of news remain the nucleus of the weekly paper because when people lose interest in

### EDITORIALS

DON'T COUNT YOUR CHICKENS . . .

At the outset of summer this year federal and covincial tourist officials were predicting a record-reaking influx of tourists. Now with the season well advanced, the high hopes of two months ago do not seem to have come to fruition.

Several factors, unforeseen or not anticipated by ernment experts at the outset of the season, have been instrumental in curbing tourist trade in Ontario. Foremost among these were the war in Korea with its attendant threat of touching off a third world war, and a spell of decidedly poor weather from the holi-

There is a possibility that we may experience a particularly nice latter part of August and month of particularly nice latter part of August and mouth of September which will help in giving tourist operators a boost in revenue and it is to be hoped that such will be the case. However, the situation up to now serves to remind us that we "shouldn't count our chickens before they are hatched" and emphasizes once again that even the experts can be, and fre-nuently are. Wrong. quently are, wrong.

their own community they become overly interested hypnotized by the atom bomb, communism, and the Chinese war.

The practice of publishing personals will prob-The practice of publishing personals will probably go on as long as there are weekly papers. It was, in fact, this practice that fostered the present aday, paper. In the 17th and 18 th celturies, conveying letters which were simply long letters, conveying local news were sent to friends in other communities and countries. Out of this custom grew the modern publications of today. Out of the same custom will grow the great publications of tomorrow.

To support personalized local newes is not to To support personalized local news; is not to condemn foreign and major local news. No weekly newspaper can gain success without the proper assessment of news and without an even distribution of personals and major news. By the same token no person should limit the scope of their news-seeking to their weekly paper. A proper balance of local and foreign news is essential to anybody's news diet. But one without the other produces limited and ignorant

'Old newspapermen define the word 'news' as being derived from 'North, East, West, South,' which is supposed to indicate the borders of information. Make

## TO CANADIAN RAILROADERS AND THE CANADIAN PUBLIC

It is important that you understand clearly why the managements of Canada's railways believe a railway strike is absolutely unnecessary.

Our reason for this conviction is that we have made the employees involved in the present dispute a fair offer of wage increases and improvements in working conditions which, if applied to all employees, will cost us \$37,000,000 a year.

We have further acknowledged a moral obligation to implement the 40-hour week at the appropriate time, and we have explained why, in fairness to Canadian industry and all other employers of labour, we cannot put it into effect now.

To do otherwise would be to perform a disservice to industry in general and to all employers and employees alike.

The railways, after making two previous offers hich the union leaders rejected, have now made a third and final offer which gives the employees the choice of either:

an increase in wages averaging 81/2 cents per hour, or

a reduction in the basic work week from 48 to 44 hours, with an increase in wage rates of 9.1% so as to maintain or in some cases improve present "take home" pay.

The labour leaders have made no concessions at all and have refused to budge from their original demands for a 5-day 40-hour week with maintenance of present "take home" pay, and in addition increases of 7 cents and 10 cents an hour.

The railways are thoroughly conscious of, and sympathetic to, the problems of their employees resulting from higher costs of Hving.

Drastic, unwarranted reductions in hours of work instead of decreasing these problems will inevitably

increase them.

residents further stated:

"... the general public is inconvenienced and
business arrangements are made uncertain so
long as the likelihood of a strike persists.

Moreover, a railway strike would so cripple

WHITH THESE CONSIDERATIONS IN MIND, THE RARWAYS HAVE MADE THIS OFFER AS THE ULTIMATE THAT COULD POSSIBLY BE EXPECTED OF THEM, AND IT GIVES A SITTLEMENT WHICH WILL LEAVE RAILWAY WORKERS IM AN EXTREMENT FAVOURABLE POSITION COMPARED TO OTHER HOUSETRAL WORKERS.

### HERE IS OUR OFFER

- (1) Recognition by railway management of a morel obligation to impli the 40-hour week at the appropriate time.
- - (A) A 44-hour basis work week with a 9.1% in

More Milk . . . Higher Quality

Fuster Milking increases milk yield . . . you get all the milk each milking: you keep milk production high throughout lactation. Here are two archarine Co-OF Universal features that make machine milking faster . . simpler:

PLUS Protected Low Yocumen or the term of the search of th

... with less time, work and equipment

the UNIVERSAL milker

CALF.-NOSE INFLATIONS—patent-ed off-center openings do away with "crawling," eliminate need for strip-ping with but rare exceptions. Large size accommodates flow of easy milkers as well as hard milkers.

FEWER FOREST FIRES SO FAR THIS YEAR BUT OANGER WILL INTENSIFY Due to high degree of cooperation between man and the elements there have been fewer forest fireed man is deserving of praise for its contribution toward foresting the bash few professions and the proving the bash few professions will be a supported by the contribution of the contrib

responsible for rain making.
However, despite the highly satisfactory state of affairs up untl the present time, the danger period is more yet past. In fact it will intensify with the progress of the blueberry picking season.
A reminder to this effect comes from the Division of Forest Protection, Province of Ontario, which urges the public to take the following precautions are with lancheous fires which are frequently set out while berry

- Build the fire close to water files or no files otherwise there may be no berries next year and perhaps no trees in the area; perhaps even no cot-
- tages, homes or barns.
  Build the fire on rock if possible or scrape away the inflammable substance from the site chosen for the

- fire. Keep the fire small and use small sticks.
  Pour on lots of water to extinguish the fire, stirring
  the ashes with a stick while doing so.
  Feel the ashes with your hand in order to make
  certain the fire is out.
  The Division of Forest Protection also calls attento the face that here pricking in the fires.

tion to the fact that berry pickers in the fire zone must obtain a Travel Permit before setting out to

### NEW DIMENSION OF NEWS

A newspaperman, one of a large group of editors and correspondents from every continent attending the Moral Re-Armament World Assembly now in progress at Caux, Switzerland, described it as a "gold mine for the Press with a new dimension of news such as we find nowhere else in the world."

A nugget from that mine was provided by Mr. James Leask, a British Trade Union Organizer who

We in Britain are proud of the fact that we helped to ploneer an industrial revolution over a century ago. These same qualities which our forefathers used to good advantage are needed today—wide vision and good manuage are necessity ourage and inventiveness and confidence in God who can guide and inspire. Without these qualities no nation can be truly great. The true wealth of a nation lies not in material things but in the spirit and skill of her people.

Industry throughout the world today needs a new charter, a charter which will give incentive and

new charter, a charter which will give incentive and objective, which will give prospectify to each country and peace to the world, which as a rasult of increased "Moral Re-Armanents it fis force in the world to-day that is attempting to create this new golden age of human happiness. One of its basic principles is the belief that people matter more than things. This is the relief and or a truth that has been expounded by philosophers, by labor leaders, by all men of good-will everywhere who have believed in the future of humanity. Here is the challenge of our day and civilmanny. Here is the challenge of our day and civil-tion. Are we capable of accepting that challenge? poverty, unemployment and war are to be avoided, a cannot afford to fail."—Port Hope Guide

### DOMINION GOVERNMENT? THERE'S NO SUCH THING

The other day we had occasion to consult the telephone directory for the number of the Post Office as L Undays, Naturally, the Post Office was at once associated with the Dominion Government and we turned to this heading to get the number. Imagine our surprise when we found that even in the listings of the telephone directory there was no such thing as the Dominion Government. The surprise was the greater because for many years the government agen-cies such as the post office could always be found listed under the general heading "Dominion Govern

Like the majority of Canadians we had heard some discussion from time to time referring to the Dominion Government as the Government of Canada but it was hard to believe that the authorities would go so far as to upset the custom of years by immediate. ately adopting a change of name (not generally approved by the Canadian people) which would tend to further complicate life for the nation's phone users.

to further complicate line for the nation's phone users.

Such mannevering on the part of officials at Ottawa is not looked upon in the most kindry light to Canadians at bome. Many, in fact a big majority of these who use the telephone to contact government agencies on the probably be interested in hearing the agencies of the probably of the contract of the terminal probably to the contract of the probably of the contract of the probably of the contract of t

fon Government.

Perhaps the local member of each riding could spare a few minutes during the next session of parliament to throw a little more light on this matter. What would come to the surface might be both surprising

### INFLATION IS "STATISM'S" ALLY

Whether or not it is generally recognized, inflation such as is being experienced in Canada at the present time is one of "statism's" best allies.

'Statism' thrives on dissension and economic up-

'Statism' thrives on dissension and economic up-heavals and these two conditions generally walk hand in hand with inflationary periods. The same holds true of depressed periods in the national economy when those who are looking for a "better deal" are most susceptible to propaganda which promises them de-liverance from all their economic problems. Democracy, if it is to survive, must steer a middle course, avoiding the pittalis of inflation and depres-sion, at the same time minitaling a high livel of

employment, a satisfactory standard of living and an incentive to individual initiative.

The present trend in Canada's economy does not appear to be in democracy's best interests. Signs of unrest are evident in organized labour's recent demand for a return to government controlled.

SUNDAY SPORT

"Statism" could become Communian.

SUNDAY SPORT |

The citizens of Linday have read recently with a certain distance of the supposed appearance of Sunday support in this district on Stindays.

Public spiring his district on Stindays.

In the citizens of the control of the con

### WILL A RAIL STRIKE

DRIVE MORE BUSINESS AWAY?

The threat of a rail strike in Canada shortly is causing considerable speculation as to its ultimate et on the transportation industry.

In anticipation of the strike coming to pass the

motor transport operators have been geared to cope with a national emergency. To them has been allocated the task of carrying on as fully as possible the transportation needs of the country.

transportation needs of the country.

The questions arise: How much of the business thus forced into the hands of the motor transport industry through the threat of a rail strike will stay there? And, what new impetus will it give rail transports greatest competitor to make further expansion?

Divergarding the merits or otherwise of the rail—the transport of the rail transp

calls for serious thought by all railwaymen.

The motor transport industry has already made big inroads into business once enjoyed by the railroads—will this latest maneuver result in further loss of trade? If so will any gain resulting from the move be wiped out in reduced business?

### CORDUROY ROADS OF THE COUNTY

A contemporary writing on the above subject has provided some material on early roads and present by-ways which is of general interest to the people of this ways which is of general interest to the people of this section of Otatach. How far removed, he muses, are our present reads. Even the lowiest township hyways better than those provided the district's ancestors a century ago. In the 1840s the cheapest type of passable road was the cordury road, made of split timbers laid crosswise on stringers. Here and there throughout the region—in evanuply areas in Cavan and Ensistence—modern car wheels still joilingly tell of the juvisible longs and in Darroy surfaces of the jast century, long and in Darroy surfaces of the jast century of the property of the pro of subway building!

of subway building:
Our county and township roads are a pleasure at
this season. Not only are their surfaces good. They
penetrate lovely countryside entirely missed by the
paved highways. Some city people on summer holidays
spend their entire two weeks exploring these avenues. spend their entire two weeks exploring these avenues. What more relaxing and quietly rewarding way can there be of vacationing? One's own table and bed at night, and each day another jaunt into near-by, placid and fruitful county niches.

### OTHERS SAY

THE RISING COST OF LIVING MAY PRECIPITATE TROUBLE

were being lifted that people expected and accepted with tolerance a moderate rise in the price of the necessities of life. They felt that this was the normal reaction to prices being held in check, in some instances unduly so. They also felt that this would right itself and a levelling off would occur. Today's trend in prices has faded the hopes of those who

trend in prices has failed the hopes of those who reasoned along those lines.

Prices in many instances have now become exporbitant and can only be termed inflationary. This is particularly true of the essential foods and those subsert things which are requisite to a mediocres standard of living. Any slight relief which was felt in some commodities has proven only transient and the recent price advances have surpassed their former record levels.

This much we know. But what of the future? It must be apparent that there will be an end to present trend in prices and this end could very

the present trend in prices and this end could very well be of an unpleasant nature.

There are two possible things which can and may came to pass. The one is a collapse of the nation's economy which is not unusual following an inflationary period, and the other is the possibility state intervention which could mean a return to go ernment controls.

ment controls.

Neither of these conditions is desirable but they both on the books unless primary producers, propors and labor stop heaping straws on an already rourdened camel's back.

Inflation and hardship are never very far apart.

And they are uncomfortably close together today. HAY FEVER OUTLOOK DARK

As if hay fever sufferers didn't have enough trou-bles, doctors now claim that dandellon pollen may be the cause of this annual snorting and sneezing. This news might be called the last straw for miserable victims, who up to now have considered rag weed their arch enemy. Considering the number of dandelions per acre the future looks black.

—Brockville Recorder and Ttimes

### GOOD WAY TO TEACH SAFETY

GUOD WAY TO TEACH SAFETY
Having seen the famous wire-haired dog, Knee-Hi
in a local safety demonstration, Orillians interested
in promoting interest in more safety can well understand why the Toronto Star and other newspapers
have been so livable in their praise of the method of
using the dog for the purpose.

When the control of th

The dog certainly aroused the interest of the youngstern in the demonstrations at Couchching Park and the Oval here last week. The interest at times reached a point of dowaright enthusiasm. Sponsored by a dog food company, the safety demonstration has been put on at many schools throughout the Province. While a man described what was taking place over a public address system, Kneed-Hi barried and ran after the bors, indping at their thouser culfix when they disregarded safety values. The tribuser culfix when they disregarded safety values. The riding double on a bicycle, to be lighting a fire, thorse in the control of the contro ling stones at lights, fighting and wrestling and doing other things that are not regarded as safe or proper. On each occasion, when allowed to run, Knee-HI chased the lads, much to the delight of the young

While ordinary teachers might have difficulty keeping the interest of the youngsters when giving safety lectures, there was no question about the in-terest in the demonstrations by the popular wire-haired terrier. Orillia children who saw him received lessons in safety they won't soon forget.—Orillia News-Letter IT'S A COOD QUESTION

Dr. Lin Yutang, the Chinese philosopher, may be kidding the Russians but in a letter to the New York

kidding the Russians but in a letter to the New York Herald Tribuse he sais some perinnent questions about the Security Council meeting that will take all the dialectical skill of a whole herd of Marzists to answer.

"The government of the U.S.R.R" writes Dr. List. "Nobls that the United Nations resolution against he North Korean aggression was illegal. The position was taken that any resolution passed in the about of representatives of Communist China is still abent and therefore presenting over meetings from which representation of Communist China is still abent and therefore presumably over meetings which in the view ta Mailk doing there?"

It's a good question and we should like to hear the Russian answer to it.—Montreal Star.

apolitismists led the service, wet-coming these who had come from Ever Moder John Poste of Pert Rope, gave an imputing address of Turney, Pert J. O., Ochston of Turney, Pert J. Ochston, Mr. A. B. More, of Mental Mr. Amerikan, and on testal of the spatient of Man-tagements: Feathering changed as reagainst the period of Man-tagements: Pert J. Ochston, and on testal of the spatient of Man-tagements and the spatient of Mr. Amerikan, Who to the control of the Mr. Amerikan, Who to used each year of the Mr. Amerikan, who to used each year for the purpose of the Createry and which this year had been used to speed effect fonce surrounding the property. Linksy Shawlon Army Band provided must throughout the atternoon.

### WI Plans Euchre. Draw And Bake Sale

Lord's Prayer.

Mrs. A. Jewell, the president,
was in the chalt, the minutes and
correspondence were read by the
secretary, Mrs. R. McGilliery,
Plans were made for a couchr, and
draw for the afghan, to be held at
the home of Mrs. Murroe, Antiquary Basch.

Arrangement

quary Basch.
Arrangements were made for the
bake sale to be held in the Pine
Grove, Bodover,
Mrs. O. peel, convener of the
meeting, took charge. Community
singing was enloyed, with Mrs. Rr.
P. McEnhern at the pissun. Mrs.
A. Jewell gave a very interesting
though a proper of the property of the conducted
a geography match.
The houstsess, Mrs. O. Peel, O. Peel,

The hostesses, Mrs. O. Peel, Mrs. A. Jewell and Mrs. N. Silver-thorne served lunch and a social time was enjoyed.

## Spelling Bee At WA Meeting

Manilla, (PNS) — The August meeting of the W.A. of Manilla United Church was held at the home of Mrs. Earl Mollon.

WEDNESDAY, AUGUST 80th, 1950

## Editorial

IS IT THE PRICE OF BEEF OR MARCARINE
THAT IS THREATENING THE MILK SUPPLY?
The margaine question has again bees brought
to the fore by those interests which would have it
benned. This time it is elaimed that if margarine
fan't removed from the market the country will be
faced with a whole milk shortage next without.
Not very many people are spt, in 'view of the
current prices of beef cattle, to accept his situatement

as a fact.

The majority of people are convinced that if there is a milk shortage next winter it will be due to the fact that farmers have not been interested in raising dairy cattle when there has been such an excellent market for beef stock.

This their prerogative and no one can have any

This their perogative and no one can have any course which nest them the best returns on their capital investment. It does not, however, give them the right to blame a competitive product for their failure to produce those products which are normally considered.

## Others Say

STILL TOO LIGHT

STILL TOO LIGHT
We agree wholebartedly with the Government's decision to punish citizens gullty of espionage in a much more severe manner than is a present our country's policy. Convicted sples, under proposed legislation, will now be liable to prison terms of focusion expans, whereas now the maximum sentence is severe enough, but it is a step in the right direction and its immediate result may be considerable lessation for immediate result may be considerable lessening of the amount of espionage work being done in this country.

--(Lethbridge Herald)

DOCTORS SHOULD SPEAK OUT

Writers of medical news have been warned again to be temperate in the claims made for so-called new "cures". The race to consume new drugs as sure cures

"Curres". The race to consume new drugs as sure cures has the medical profession alarmed.

The point is well taken, but the doctors themselves, or those who speak for them, have a share of the responsibility. There are enlightened members of the profession who do much to assist in the proper having their views expressed in public.

If there is not unanimity among doctors about the efficacy of new discoveries, the public should be made aware of the facts. Only reliable sources should be consuited and used. If dectors shu the responsibility, should they not bear a share of the blame for any effects that may seem from improper use of the share of the share for the share of the share for the share of the share for the share of the share of the share of the share for the share of the share of the share of the share for the share for the share of the share for the share of the share for the share of the shar

FACTS ABOUT OUR MILK SUPPLY

Since considerable publicity has recently been given in regard to the milk supply in Lindsay, and since our name has been connected with this publicity, we are making a statement of facts with reference to this which we hope will clear the matter in the minds of all our people.

First, Sliverwood's throughout their entire organisation have a rigid policy of inspection and examination which does not permit the bottling of any milk that is not first quality.

The fact that certain milk comes from farms that have not been inspected by the Lindsay Board of Health does not necessarily mean that this milk is of inferior quality. The points it but all milk received by us is rigidly inspected and graded and only first quality at all times is used.

"WHAT THIS COUNTRY NEEDS..."

Just mention chocolate bars to the average adult since the price has gone up to seven centa again and you will touch off a lengthy lecture on the alleged evils of the chocolate manufacturers of Canada.

evis of the chocoiste manufacturers of Canada.

The average chocolate bar consumer feels that
he is being badly done by when he pays seven cents
for the diminutive package of candy being offered
today. He is quick to point out that the cutting of the price of chocolate bars back to the five-cent level the price of chocolate bars back to the nwe-cent level a short while ago was accompanied, or preceded by, a reduction in the size of the bar. Now, he complains, the bar is back to seven cents but the additional two cents do not buy the same quantity of chocolate they did when the bar was selling for seven cents be-

It would appear that Canadians can tolerate a good five-cent chocolate bar done up in small pack-ages but when the small package is boosted to seven cents they lose interest.

cents they use interest. Now the cry of some future politician will prob-ably be "what this country needs is a good five-cent cigar and chocolate bar."

### THE SCENERY IS BETTER

THE SCENERY IS BETTER
OFF THE MAIN LINE
Every fine weekend hundreds of Lindsay and district motoriats take to the road for a spell of freedom
from the confining boundaries of the town. The main
highways converging on Lindsay are unually sought
out by these drivers and few ever venture off onto the little travelled roads which are maintained by town-

little travelled roads which are maintained by town-ship and country has the transport of no eneculation: the little travelled township and coun no speculation: the little travelled township and coun-ty roads offer far more some beauty than will ever be realized by sticking to the main roads and it can be enjoyed at speeds which will permit one to drink it in. If this is not sufficient inducement to explore some of these roads, there is the added attraction of being able to find real relization in driving, something which cannot be found on the main arteries with prevalling speed limits.

A short trip along some of these rural byways any

summer's evening or at the weekend is a pleasant experience which offers many surprises, a wide variety of attractive scenery and at the end a refreshment of spirit which cannot be found by sticking to the busier highways.

## OUR MILK SUPPLY SHOULD BE SAFEGUARDED AT ALL COSTS

It was a piece of astounding news to most Lindsay

people to learn following the Lindsay Board of Health's meeting this week that they were being served with milk which was both uninspected and packaged in bottles which were unclean.

bottles which were unclean.

The consuming public, paying the top prices now commanded by licensed milk distributors, naturally expect the very finest product that can be obtained, distributed so as to ensure a maximum of safety for

their health. For sometime Lindsay published monthly reports of the colon bacillius count recorded in monthly tests of milk being sold by each Lindsay datry. This information appeared in the paper alongside the name of the firm and in this way the public were able to get a pretty good idea of which dairies were making a supreme effort to furnish a safe milk.

For some reason this practice was discontinued. The recent revelation would seem to merit consideration being given to resorting to it again.

### THE RAIL STRIKE AND THE PRESS

Since the railway strike started the press was one of the first Canadian businesses to be affected. Immediately the strike went into effect the press was faced with the problem of distribution and, fortunately, it has been able to a large extent to cope with the situation. Circulation has been maintained to the

the situation. Circulation has been maintained to the majority of subscribers and improvements will probably be noted as time goes on and adjustment is made to conditions arising from the strike.

It is very interesting to note the concern felt among subscribers to the Post when distributions of the paper was threatned. This reaction served to the probable the belief long held by newspapers must be greater demand that the spoken word. In other words are present element data that she spoken word. In other words radio, while it may be a source of great pleasure in the field of entertainment; this is no way issessed in the words. field of entertainment, it has in no way lessened the desire of the public for the news in printed form which it obtains regularly through the medium of Canada's daily and weekly newspapers.

Realising this dependence of the public on the press for its news, newspapers generally are making every effort to cope with the present disruption of distribution facilities.

## OTHERS SAY

DREADFUL WASTE OF LIFE

Great disasters are always distressing. They invariably have a profound emotional effect on the community, Such an event was the fire which destroyed community, fluch as event was the fire which destroyed the S.S. Normal with declete all Toronto. A fold of 11s persons lost their lives in this major catastrophs of Canadian marine history. Others were seriously injured and have memories of horrors they will never forget. Properly losses ran to millions of foliars.

Yet last year there were seven times as many people killed in motor accidents in Ontario alone as lost their lives in the Normale alone as lost their lives in the Normale approach over a wide area and occurred during a twelve month period many people fall to realize fully how great they really were.

During the same period the number of persons During the same period the number of persons under the number of persons adjured in such accidents in Ontario equalled the population of the cities of Belleville, Chatham, North Bay or Stratford. The total of dead and injured on this one count qualled the normal population of nearly 100 school classrooms. The value of property so damaged is estimated at the equivalent of 4,000 ne wears. This is indeed a dreadful waste of human life.

effort and assets. Everyone will agree on that. It can be reduced very considerably, but this can only be done if everyone, realizing the seriousness of this trend, determines to do something about it—and then carries that determination into effect.—Welland Tribune

### WHY ENTER PARLIAMENT

WHY ENTER PARLIAMENT
Writing in the Winnipeg Free Press Mr. Bruce
Hutchinson, one of our better thinkers, discusses the
reasons why "we cannot attract better men into the
Canadian Parliament." (There is no accent on the Canadian Parliament." (There is no accent on the question of sex, and without knowing anything about Mr. Hutchinson's views on feminism we feel pretty sure that in that expression he intends "men" to embrace women.) His idea is that the real reason for this failure is "that an able young man, quite rightly, does not see in Parliament a reasonable chance of an interesting life."

With all respect to Mr. Hutchinson, that is absurd. He compares going into Parulament with going into many professions "which, by official figures, pay less than the salaries of parliamentarians." He thinks that young men go into these professions for an interesting young men go into these professions for an interesting life. We don't believe they do anything of the kind. Very few Canadians pick their occupation for the sake of an interesting life. Journalists, of course, are the outstanding exception. There is no reason for going into Journalism except the valid one, that it is an interesting life, and the rather less valid one, that it may afford an opportunity to do the state some ser-vice. All the customary considerations—money, so-cial particles are considerations—considerations—money, so-

The trouble with Parliament is that, unlike den-The trouble with Parliament is that, unlike den-tistry, the law, trade union leadership, bricklaying and beauty-parloring, it is not a career. You cannot be sure of continued employment (or unemployment insurance), increasing seniority, a pension scheme (except for those who are lucky enought to become Senators), or even an income sufficient to allow of adequate savings for one's old age. For most parlia-mentarians it is a dead-end occupation.

The whole concept of Parliament was developed

In an age when there was an ample supply of people with aubstantial unearned incomes, nothing in particular to do, and a fairly strong conviction that they ought to do something for their country. The original Parliaments were entirely filled with people from this class; and except for an almost total inability to under-stand the problems of less fortunate classes, they made excellent Parliaments. That class is being rapidly excellent Parliaments. The abolished .-- Saturday Night

## THE THINGS PEOPLE LOSE

THE THINGS PEOPLE LOSE

We are an assidious reader of our own classified advertisement pages. These little advertisement reveal the vary heart of a district's domestic little the antique sofa for sale; the boy's suit, site 11 (some-body growing up prety fast); the discrete proteasing 'cardia'; the child's play pen wanted; the bargains in used cars; the house asked for or to be let. We series particularly struck by the Lost and Found section the other evening. There were the usual lost dogs answering to the names 'Mike', 'Chum' and the like. The usual 'parties' who took—by mistake of course—bicycles from here or there are politely requested to return same.

The usual keys, wallets and spectacles are being sought.

But who on earth would walk off with a one-gallon
can of monument-setting compound? The owner or monument-setting compound? The owner seeking it assures all and sundry that "it is good only for setting monuments". And how did the green and yellow budgle, with 'Jole' on its leg band, go astray? Here is the most intrinse of the contract of the cont for setting monuments and the setting monuments with Jule on its leg hand, go astray? Here is the most intriguing picture of the evening's Lost and Founds: "Incit: Mother duck and seven Jule Ones, pure white, with red on faces". As we walked upper the setting of the setting o

Municipal forestry in Canada is far short of what it should be considering all the direct and indirect benefits such as wood crops, recreation, water-table control. Below the border, for example, more than 3000 cities and towns have community forests.

"A Forest For Every Municipality," a slogan thought up by Mr. Ellwood Wilson, dean of Canadian foresters and a director of the Canadian Forestry Ase'n, has really caught on in Quebec's castern townships, where Mr. Wilson does extension forestry.

Putting the slogan into practice right across the country shouldn't be too difficult. Nother the area nor the trees need be large. The forest may begin from a outover tract, an abandoned farm, or tax-delinquent property. The location should be close to other lands

for later acquisition. If the land has to be planted, seedlings are available from provincial nurseries. Planting can be a real community outing with school-child ren, club members, ir. rangers, Boy Scouts doing the

When trees are big enough to be thinned there will be a cash return and when the forest is fully grown it should contribute to the cost of running the muni-

Once a few of these projects get going in a locality, they should create a healthy competitive spirit. Neighboring communities, will accept the challenge to set up their own forests. On this kind of a program, the sky's the limit.!—Woodland World.

### THE AMERICAN WAY OF LIFE

THE AMERICAN WAY OF LIFE
Dr. A. M. Lower, professor of bistory at Queen's
University, has described American culture as the
cult of the soap opera, juvenile comics, soft drinks,
and a noise called jazz music. He went on to say that the world had got the impression that America was a great lunatic asylum in which the common man had become very common indeed. He insisted that somehow we must overcome the domination of Hollywood and the cheap values which are so chacteristic of our

While we soree with many of his statements we feel that the problem is a much more complex one than he suggests. America is the product of the period of great technological advances and scientific discoveries; in an impatient pursuit of an ever higher standard of living we have become worshippers of values that have little social or spiritual significance values that have fittle social or spiritual significance ...
American culture has set up material idois, four of them, before which it is ever ready to protures itself. The first is wealth . . . the second is success ... the third is notoriety and the fourth is pleasure. Our magasines, our newspapers, our radio programmes all testify to the billind worship of these false gods. For them we are ready to sacrifice human sami-

tity, human dignity, human kindness and above all

spirituality.

The worship of such idols has its rewards .

disillusionment , bitterness , hypocrisy , deceit , and bewilderment that ends in despair.
Until our education, in the home in the church and in the school begins to reach out beyond materialand in the school negatis to reach out beyond macaning istit things and aspires to a way of life more in keeping with our divinity learned men like Prof. Lower, will be justified in attacking our way of life and commun-ism will continue to appeal to those idealists who blindly grasp at any alternative that seems to promise some way out of our materialistic morass.

--Port Perry Star

POLIO CASES FEWER
It is gratifying to note that so far, at least, there is no sign of an epidemic of polionyeiltis in Ontario similar to that which swept over the province last summer. In the first eight months of 1948, Ontario summer. In the first eight mosths of 1949, Outaino had total of 483 cases of that dread disease, and up to the mouth of August last year, 24 deaths had been reported. This year, up to the present, there have been only 55 cases and one death in the province. It may be, of course, that this disease runs in cycles, and that 1950 is not one of its bad years. Health authorities confasts that they cannot account

Health authorities confess that they cannot account for the drop in its inicidence this year in any other way. But it may well be that the lessons which were given to the public in last year's epidemic have been well learned, and that precautions against pollomystic lare being more generally observed than was the case then. If that is the case, then much good has been accomplished, because by observance of elementary principles, the fear of pollomyelitis can be greatly lessons.

greatly lessened.

Health authorities are specific in suggesting precautions. The careful washing of fruits and vegetables cautions. The careful washing of truits and vegetables, pasteurizing of milk, use of pure drinking water, con-trol of files and other disease carrying insects, are things which should come naturally in every home. Yet following these steps can prevent pollo with all its attendant suffering and crippling results.

Railroader Claims Figures Represented Maximum Pay Not Average Earnings

## A Word From Tangney's

Our ad man has been regimented for other duties. Even with the large stock we have on our floors and the stock in our warehouse we fluid that the rail tie up is leaving us short of goods and we had to send our trucks to the factory to bring in more stock.

I guess it must be Tangney's good values, sound merchandise, and above all, our guarantee of satisfaction that keeps our business increasing every day. Speaking of assisfaction, that is the one thing we do stress. Our customer must be satisfied, or we aren't. Added to that, you get wonderful exclusive designs at lowest prices.

Last week did you see the beautiful limed oak suite in combina-tion with Mahangany displayed in one of our east windows? Wasn'i it a a beauty? It consisted of a dresser with large plate nirror, a full size continental bed, complete with pastel bead board, and to complete the whole suite there were matching bed side (able at each side of the continental bed. That complete suite is a Tangney value at \$149.00.

This week in the same window, we have a beautiful bedroom suite, genuine Burl Walnut in a soft tone. The vanity has a triple unirro, no with the middle mirror extending low to the floor which gives you the advantage of a full length mirror in your bedroom. The wing mirrors are adjustable, greatly adding to the convenience of its user. Another feature of the vanity is a glass shelf which will not take harm from cometics, or such. The bed is full size with a grareful vaterful head and foot. The design is really onistanding. To complete this bedroom is a large four drawer does which gives lots of storage space. The three pieces are only \$149.00.

There are many other suites in our beautiful display on the serond floor. Just take the elevator and look them over. You never did see a finer display with the beds all set up and the suites arranged as you would have them in your own room. Three pieces priced as low as \$67.50.

The weather is warm and although it may seem unseasonable to The weather is warm and although it may seem unseasonable to talk about atores, we suggest that you make plans for feating your home or changing your stove right now. Our stock is complete in Coleman heaters, ranging from \$75.60. See the display of Coleman heaters and coal and wood ranges in our window. Come in with the approximate size of your house, look these over and get information directly from one of our salesmen who is always glad to show you the goods and explain its features. in coal and wood ranges, the pro-sent results of the control of the c

Lumbarido.

Both BBC and Voice Progra too often stress what Eastern Eupeans view as trivial news. BBC losing ground now because it ascribes too many Britan court of monies. Talk of expensively gown complain that what they hear en Western broadcasts is not strong chough to compete with the danger.

as useless. So it is, too, with word of any gatherings in America.

The Poles, Ozechs, Hungarians, Rumanians and others who listen don't feel the western broadcasters understand them or their countries. They get the notion the man at the

According to the reports, here's what the satellite listeners want:

I Good, solid information about the social, economic, political and scientific progress of the U.S. and the West, to be thrown into the balance against Russia's polsonous

balance against Russla's poisonous anti-western propaganda. 2. Clear signs of what the West would do when and if it can free the satellites from the Russian yoke. Do we have a social and economic

3. Programs which indicate the West really understands conditions

Wital to this end is the need to assure the listener he's being addressed in his OWN interest, not in America's or Bittain's, He must feel he is hearing from a friend, a brother, a man who knows him and his problems well.

But the satellite reports suggest they'd like to see an expanded Voice of America. In effect, they say: strip away the frills, the general slogans the excess talk, and focus on hard facts well-interpreted. With that kind of information, men can keep up their courage under tyranny.

# Visignad the BBC doors to the montax. This of expensively sevened than of information, more can always a few forey than to merce to a more provided some in trended to their course under tyrana Ex-U.S. School Teacher Seeks Homes For Milliions of Europe's Refugees

Paris (NEA) - Mrs. Evelyn Scheyer a forner school-teacher from New York, is house-hunting in Western Europi -on a wholesale basis.

As metilement specialist in the labor dvision of the Economic Cooperation Administration in Paris, her jol is to find homes for some of Europes millions of displaced persons.

ner det. But to Mrs. Scheyer, they are no just 'refugees.' She thinks of then as 'men and women looking fora job and a home in a place which is unfamiliar to them." And each one has a different personal problem. There is even a big problem over the word 'refu-

big problem over the word 'refugoe," and what makes up that category.

Does it include the White Rusains wip have lived in Paris for 30 years? What about the Kalmucka? On the march for 600 years from

what makes her current jo so difficult, Mrs. Schieyer says, i that the refugees are dumped at the nearest ports of entry, in areas less

MRS. SCHEYER: Even the word "refugee" is a problem.

SYMBOL OF LIFE is Dachau, once the infamous Naxi enocentration camp. Now it houses hundreds of Europe's homeléas.

Refugees now make up 50 per will cent of the population in the batter treed little state of Schlewing-Hole 28A stein in Northwest Germany. Bacoustria, has the second largest group, get has had a hard time setting other sour West German states to accept re-Trugees pouring in across her eastern of a

To trips through Germany and w Austria, Mrs. Scheyer has seen for m herself the acute housing conditipions. Refugers are livings in comverted freight cars, in old Army w barracks, and in the former concentration camp at Dachau, Two faunities frequently share one small ?

The largest project undertaken thus far, especially for reugees, is to provide 10,000 new dwellings in Schleswig-Holstein. ECA has approve, use of 40,000,000 Deutsche marks in Marshall Plan counterpart funds (the equivalent of about \$10,000) for the project. The government of Bohleswig-Holstein, to either with building cooperatives.

To encourage private investment, SA releases the local currency unuterpart funds only for projects etting some funds from other purces, Afra. Schuyer points out. To help make the refugees part of the German life and commy, see explains, the new homes will be

were housing for workers.

Bill, out of a total of 2000,000
unemployed in Western Germany,
700,00 are refugees. As a group they
are living not so well as their German cousins and generally far worse
than they lived in their former

In Austria, Mrs. Scheyer says, nose of the workers among the 50,000 refugees outside TRD camps have found jobs, but un: "Noyment imounts to 10 per cent of the working force and there are signs it may true workers."
